Subject: Re: Glycol Analysis HT for Dimock Project

I do not have any correspondence on this. I know that Jennie did test the same samples over time to detect loss -- I have not seen the results.

Stevie,

Do you have any documentation on the HT for glycols changing from 7 to 14 days? I thought we were following 14 days (and that's what is in the new SAP) but I don't see any documentation that captures that for the Jan/Feb sampling.

Cindy
